

*The Golf Lamp™*  
by boasform

## boasform *The Golf Lamp*

I have created "*The Golf Lamp*" in the spirit of combining my passion for lighting design with my passion for the game of golf and thus embed the elegance and iconic design elements into a functional lighting fixture - that allow me to "illuminate my passion".

Materials have been carefully selected to get an exclusive look and a long lasting quality.

The shade is made from porcelain with a smooth surface carrying a dimple symmetry pattern, while the lamp base is inspired by the shape of the golf-tee with sharp edges and curves. The latter is made from anodised aluminium with a steel core.

I hope you share my passion for living the golf lifestyle - perhaps it time to "illuminate your passion" too!

Thomas Boas,  
*boasform*

“.. cross-linking  
nordic light design  
with iconic elements  
from the  
world of golf..”
